Workshop Objectives:

1. *Present background and origin of the Coordinated Assessments effort and its linkage to the Anadromous Salmonid Monitoring Strategy.*
2. *Identify needed actions to discover and inform partner and regional data sharing needs and priorities to:*
    a. *Advance recommendations for regional standards to improve data sharing and support basinwide assessments.*
    b. *Inform optimal allocation of limited, regional data management resources, including Columbia Basin Fish and Wildlife Program funds, NOAA funds, and other regional data management funding sources:*
        i. *For individual partner capacity; and,*
        ii. *For shared infrastructure.*

Tues. Oct. 5, 2010	Topic	Objective
10:00am [30min]	**Welcome, Introductions, and Review Meeting Agenda**	- Know who is here - Introduce planning group - Meeting logistics and ground rules - Opening comments
10:30am [60min]	**Establish Context for Workshop**	- Brief review of Anadromous Salmonid Monitoring Strategy - Understand drivers for developing regional priorities for data sharing - Brief review of Coordinated Assessments Workplan. - Understand scope of this effort and its relationship to other high level indicators.
11:30am [60 min]	**Current State of Data Sharing**	- Understand regional efforts at reporting salmon and steelhead population information: - NOAA 5-Year Status Review - StreamNet/SOTR - WA State of the Salmon - FCRPS Annual and comprehensive reports - Understand upcoming evaluations that will rely on basinwide salmon and steelhead data.

12:30pm	*Lunch (on your own)*	
1:30pm [60min]	**Data Exchange Template (DET) – Overview and Pilot Efforts**	• Understand DET concept • Review DET contents and Analysis Flow Diagrams • Hear results from DET pilot efforts • Identify and discuss questions about the DET effort
2:45pm [45min]	**Next Steps for DET as Part of Broader Effort on Gaps, Needs and Priorities**	• Present concept for continuing DET development. • Discuss proposed approach to use DET pilot to assess data sharing gaps for anadromous salmonid population level information. • Identify additional sources of information to include in draft DET development and potential additional sources to populate DET (i.e., CSMEP, TRT, etc.). • Discuss sources of funding and support for DET approach.
3:30pm	*Break*	
3:45pm [60min]	**Group Discussion About How Best to Assess Gaps and Identify Priorities (Building on Existing Effort)**	• Discuss strategies for assessing data sharing gaps across basin. • Define the role for DET and Flow Diagrams to assist in assessing data sharing gaps. • Develop deliverables for the gaps assessment. • Discuss how to determine regional data management priorities.
4:45pm [15 min]	**Wrap-up**	• Review and discuss comments. • Solicit participant's key questions and issues for discussion tomorrow. • Review plans for tomorrow.
5:00pm	**Adjourn**	

Data Sharing Workshop to Support Coordinated Assessments

Wednesday, October 6, 2010
8:30am – 12:00pm (PDT)
@
Portland State University Place Hotel & Conference Center

Support Material is posted on the PNAMP website at
