

**Resident Fish Focus Workgroup Meeting: Draft Resident Fish High Level Indicators  
Tuesday, July 10, 2012  
8:30-10:30 a.m. (Pacific)**

**Columbia Basin Fish & Wildlife Foundation Office  
851 SW Sixth, Suite 250  
Portland, OR**

**WebEx has been arranged for this meeting:  
Select: [RFFW July 10 WebEx Logon](#)  
Login First: Enter your name and email address  
Session password: rffw (lower case)  
Click "Join Now"**

**Teleconference Number: 503/229-0449 ID: 712043**

**Draft Agenda**

- ITEM 1: Introductions**
- ITEM 2: Review Agenda**
- ITEM 3: Northwest Power and Conservation Council's (NPCC) High Level Indicators (HLI):  
Process Overview and Timelines**

The draft MERR Framework includes a proposed approach for evaluating and reporting on the NPCC's Fish and Wildlife Program (Program) progress and the status of fish and wildlife in the Columbia River Basin. One component for reporting on the NPCC's Program and on the status of the fish and wildlife is the NPCC's draft web-based HLI report.

Currently few, if any, resident fish HLIs have been developed for this report. In an attempt to improve the NPCC's HLIs for reporting on the status of resident fish within the basin, NPCC staff has identified, using the draft Resident Fish Monitoring Implementation Strategies, potential Performance Measure Indicators that could be used to inform draft Program questions and resident fish HLIs.

Nancy Leonard (NPCC) will describe the NPCC's process, desired outcomes, and tentative timelines.

- ITEM 4: Review NPCC's Draft Resident Fish HLIs**

Review and discuss the comments that were submitted by the resident fish managers from throughout the Columbia River Basin.

- ITEM 5: Evaluate the need for an additional meeting**
