Draft Agenda

ITEM 1: FY 2007-2009 Project Selection Process

The AFAC has been asked by the Members to review the preliminary ISRP report to NPCC (due June 1) and the individual province recommendations to NPCC (due June 16) in order to identify issues that CBFWA should address in relation to project selection. The committees will review these two documents, and the BPA capital assignments for projects, and develop a recommendation for MAG review. The AFAC will frame issues for the review and develop the format for the draft comments back to MAG.

ITEM 2: Update on Regional Issues

Tom Iverson will provide an update on current issues in the region.

ITEM 3: Next Meeting

Schedule a meeting for either July 6-7 or July 10-11 to integrate comments received by all AFAC members and develop a draft recommendation for MAG.
