Re: Errata - NOAA Fisheries Comments on the Mainstem and Systemwide Project Proposals

Dear Mr. Marker:

This letter is to notify you that we have identified an error in Enclosure 1, *Mainstem and Systemwide Provincial Review Projects*, of our letter to you dated January 21, 2003 that transmitted our comments on the Mainstem and Systemwide Project Proposals. The RPA Action item for Project 198909600, *Monitor and evaluate genetic characteristics of supplemented salmon and steelhead*, is shown as "184." It should have been shown as RPA Action Item 182. Please make the appropriate change in your records.

If you have further questions regarding our review of any of the proposals please feel free to contact me at 503-231-2177.

Sincerely,

John R. Palensky
Implementation Team Coordinator
